Trees for Life

## Physical Rating for this trip: Grade 1

Anyone fit and healthy should be able to actively participate in this trip. There is very little physical activity although you will be expected to carry your own luggage at times. Walking around markets, city tours and such like is common and so you could be spending a few hours on your feet.

## Cultural Rating for this trip: Grade 3

Students should expect some culture shock. You'll be exposed to signs of poverty. The food will be quite different to home and English, whilst still spoken, will be less prevalent. Respecting the local culture will make it easier to fit in and get the most out of your trip. We're likely to visit remoter locations on this tour where access to western style services may be sporadic. Often on trips of this grading there are parts of the itinerary which are more remote, interspersed with sections which are more 'comfortable'.
